INVESTMENT PHILOSOPHY

We believe that by utilizing an alpha-focused relative value investment strategy, we can achieve consistent outperformance in the knowledge-intensive high yield market. We employ deep fundamental credit research, thorough scenario analysis, and sophisticated analytic models to provide real-time valuation and risk metrics that facilitate timely decision making and an opportunistic trading strategy.

Key Differentiating Characteristics:

- Comprehensive Scenario Analysis
- Proprietary Valuation Models
- Proactive Risk Management Approach
- Opportunistic Trading Strategy

STRATEGY HIGHLIGHTS

- In a high yield market dominated by large managers with index-like strategies, Advent's approach of building more concentrated portfolios comprised of high conviction positions has resulted in outperformance (on a gross basis) since the strategy's inception.
- Our large team of experienced research analysts and proprietary real-time valuation models facilitate a nimble, opportunistic investment strategy, enabling us to capitalize on mispriced securities with attractive prospects even when markets exhibit high volatility or diminished liquidity.
- Advent has been managing high yield assets for over 14 years and this strategy is a natural extension of the firm's rigorous bottom-up, fundamental credit research platform.

INVESTMENT MANAGER OVERVIEW

Advent Capital Management, LLC was founded in 1995 and is a registered investment advisor with the SEC. Advent manages approximately \$9.2 billion* in assets across several traditional, alternative, and closed-end fund strategies for corporations, public pension plans, foundations, endowments and high-net-worth individuals. Advent's proficiency in investing across the entire capital structure is driven by the strength of proprietary fundamental, bottom-up credit research.

Disclosures:

Firm Information:

Advent Capital Management, LLC (Advent) is an investment adviser registered with the Securities and Exchange Commission under the Investment Advisers Act of 1940. Advent is an independent, privately held limited liability company. Advent Capital Management UK Limited, a wholly-owned subsidiary of Advent located in London, is authorized and regulated by the U.K. Financial Conduct Authority. Advent specializes in global and domestic convertible, high yield, and event-driven strategies based on a credit focused investment process with offices in New York and London. Advent has approximately \$9 billion in assets under management (as of 6/30/18). We manage institutional assets across long-only, hedge fund and closed end fund strategies. A list of all firm composites is available upon request.

Advent claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. The verification report(s) is/are available upon request. Advent has been independently verified for the period 9/30/95 – 12/31/16. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Long Only High Yield Composite has been examined for the periods 1/1/11 - 12/31/16. The verification and performance examination reports are available upon request. Additional information regarding policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request. Past performance does not guarantee future results. This performance report should not be construed as a recommendation to purchase or sell any particular securities held in composite accounts. Market conditions can vary widely over time and can result in a loss of portfolio value.

Composite Characteristics:

1) Advent's Long Only High Yield Composite (Composite) consists of the following:

- Inception of the Advent Long Only High Yield Composite is January 1, 2011 and the creation of the composite is September 2011.
- From inception through December 31, 2011, the Composite includes the performance of a sub-account (sleeve) within one of Advent's closed-end funds. From December 31, 2011 through June 30, 2015, the Composite includes a weighted average of two sleeves within two of Advent's closed end funds. From June 30, 2015 through October 31, 2015, the Composite includes a weighted average of three sleeves within three of Advent's closed end funds. The portfolios are long-only portfolios that seek to invest in high yield bonds to achieve both yield and investment gains. The portfolios are maintained separately on our books and records as well as by the custodian/administrator, BNY Mellon, including cash balances.
- From October 31, 2015 forward, the Composite also includes separately managed account(s) that are not sub-accounts of the above mentioned closed-end investment companies.
- No leverage or derivatives are used in the strategy.
- Accounts in the Composite primarily invest in USD denominated high yield bonds. The Strategy seeks to identify undervalued sectors and securities, based on relative value within and among the credit quality and industry segments of the market.
- As the inception of the strategy was January 1, 2011, there is no three year ex-post standard deviation statistics for the composite as of 12/31/2011 or 12/31/2012.
- As of 12/31/13, the 3-year ex-post standard deviation for the Composite was 6.79%. The BofA Merrill Lynch High Yield Index (HOA0) 3-year ex-post standard deviation was 6.51%.
- As of 12/31/14, the 3-year ex-post standard deviation for the Composite was 4.84%. The BofA Merrill Lynch High Yield Index (HOA0) 3-year ex-post standard deviation was 4.50%.
- As of 12/31/15, the 3-year ex-post standard deviation for the Composite was 5.23%. The BofA Merrill Lynch High Yield Index (HOA0) 3-year ex-post standard deviation was 5.35%.
- As of 12/31/16, the 3-year ex-post standard deviation for the Composite was 5.74%. The BofA Merrill Lynch High Yield Index (HOA0) 3-year ex-post standard deviation was 6.11%.

2) The following is the criteria for inclusion in the Advent Long Only High Yield Composite:

- All new accounts will be included at the start of the measurement period following the date the portfolio begins being managed. This is true except when an account is the first account to enter the Composite, in which case the account enters the Composite immediately.
- Performance periods will be on a monthly basis.
- Portfolios that are terminated will be excluded from the Composite after the last full month the portfolio was under management.
- The Composite will be comprised of all accounts that meet the criteria to invest in Rule144A securities.

3) The following pertains to performance results:

- All performance is presented in US dollars.
- Annual returns for the Advent High Yield Composite are presented both gross and net of management fees. A model management fee is used for the sub-accounts within the three Funds and for any other accounts in the Composite. The model fee used for all accounts in the Composite is 50 basis points per year. Returns presented on a gross basis are substantially higher than returns presented on a net basis because gross returns do not reflect the deduction of investment advisory fees and other expenses that would be incurred by a client. The returns of a client investment in any Advent investment strategy will be reduced by the advisory fees and any other expenses it may incur in the management of its account. Investment advisory fees have a compounding effect in reducing the value of a client portfolio over time.
- The Advent High Yield strategy's advertised fee schedule is 0.50% on the first \$50 million, 0.45% on the next \$150 million, and 0.40% on over \$200 million.
- Past performance is not necessarily indicative of future results.

4) Benchmark Information:

- The Composite is benchmarked to the BofA Merrill Lynch High Yield Master II Index (HOA0). The benchmark tracks the performance of US dollar denominated below investment grade corporate debt publicly issued in the US domestic market.
- Benchmark returns are not covered by the report of the independent verifiers.

Calculation Methodology:

Advent calculates an asset-weighted return using the aggregate method. This method aggregates market values and cash flows for all accounts and treats the composite as if it were one account. The dispersion measure is the asset-weighted standard deviation for accounts in the composite for the entire year. The dispersion measure is not presented for periods where there are five or fewer portfolios included in the composite for the full annual period.

DISTRIBUTION RESTRICTIONS:

Information in this document must not be used in any jurisdiction where prohibited by law and must not be used in a way that would be contrary to local law or legislation. The information in this document does not constitute an offer to sell or a solicitation of an offer to buy an interest in Units or any other security that may be referenced herein. Persons receiving a copy of this document in any jurisdiction may not treat this document as constituting an offer, invitation or solicitation to them to subscribe for Units notwithstanding that, in the relevant jurisdiction, such an offer, invitation or solicitation could lawfully be made to them without compliance with any registration or other legal requirement. Any entity responsible for forwarding this material to other parties takes responsibility for ensuring compliance with applicable securities laws. It is the responsibility of any persons in possession of this document and persons wishing to apply for Units to inform themselves of, and to observe, all applicable laws and regulations of any relevant jurisdiction. Unless otherwise indicated, no regulator or government authority has reviewed this document or the merits of an Advent investment strategy or Account.

GENERAL RISK WARNINGS:

Past performance and hypothetical performance does not guarantee, and is not a reliable indicator of, future results and the performance of the Account may be substantially different. Current performance may be lower or higher than performance shown. The performance of an Advent investment strategy or Account may be volatile, and an investor could lose all or a substantial portion of any investment made in an Advent investment strategy or Account. No representation is given that an Advent investment strategy or Account is suitable for any particular investor. Market conditions can fluctuate and vary widely over time and can result in a loss of portfolio value. It should not be assumed that results for historic or hypothetical portfolio investments or investment strategies will be achieved for other investments in the future. No guarantee or representation is made that any Advent investment strategy or Account will achieve its investment objective or have positive returns. Investments may be in a variety of currencies and therefore changes in rates of exchange between currencies may cause the value of investments to decrease or increase. Furthermore, the value of investments may be adversely affected by fluctuations in exchange rates between the investor's reference currency and the base currency of the investments. Investments in derivative investments carry certain inherent risks such as the risk of counterparty default and before investing you should ensure you fully understand these risks. Use of leverage may also magnify losses as well as gains. Returns presented on a gross basis are substantially higher than returns presented on a net basis because gross returns do not reflect the deduction of investment advisory fees and other expenses that would be incurred by a client. The returns of a client investment in any investment strategy will be reduced by the advisory fees and any other expenses it may incur in the management of its account. Advisory fees have a compounded effect in reducing account performance over time. Investing in financial markets involves a substantial degree of risk and there can be no guarantee that the investment objectives of an Advent investment strategy or Account will be achieved. Investment losses may occur, and investors could lose some or all of their investment. This document may contain certain forward-looking statements. In some cases forward looking statements can be identified by the use of terms such as "believes", "estimates", "anticipates", "projects", "expects", "intends", "may", "will", "seeks" or "should" or variations thereof, or by discussions of strategy, plans, objectives, goals, future events or intentions. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances. Actual outcomes and results may differ materially from any outcomes or results expressed or implied by such forward-thinking statements. The success or achievement of various results, targets and objectives is dependent upon a multitude of factors, many of which are beyond the control of Advent. No representations are made as to the accuracy of such estimates or projections or that such estimates or projections will be realized. Actual events or conditions are unlikely to be consistent with, and may differ materially from, those assumed.
